Erases search query and retype it in the "Filter" text input.

Plays song

Song ends and goes to the next one

Clicks every list's header

! = pain points

WHAT THE USER
IS **THINKING**...

"I want to play my favorite music from Tchaikovsky"

"Oh no! It's not searching in my music!"

"I see, it's not the right input..."

"Enough. Let's what next."

"I hate when it switches from one genre to another."

"There's no way to sort this list by year or genre."

WHAT THE USER
IS **FEELING**...

confident

annoyed

confused
